CREATING HARMONY BETWEEN THE OCEANS AND HUMANKIND

# PERFORMANCE REDEFINED

## THE ULTIMATE SPORTS CONSOLE

Source 22 is a true powerboat for all nautical adventurers. With a sporty console, race pilot seats, utility deck, and social hangout areas, Source 22 is a highly flexible powerboat giving you the opportunity to do anything you want on the water. Source 22 is one of the fastest electric boats on the market, with a leading green profile in production, making this boat extremely sustainable without compromising on power, comfort, quality, or fun.

# LUXURY MEETS ON-WATER THRILLS

## GAME CHANGING DESIGN

Source 22 represents a new approach to sports console boats, using a new design language specifically developed for its segment. The design of RAND Source 22 is inspired by the dynamic curves and A-class surfaces familiar from high-end luxury sports cars. The exterior is a subtle play of shadows and taut surfaces, enhanced on the side by a new design element - the infinite loop. The Source 22 is a testament to style, functionality, and raw performance, enhanced by RAND's new game-changing design.

## RACING PERFORMANCE

The hull design of Source 22 is all about speed and efficiency, resembling a race boat with a close to 4:1

length-to-width ratio, giving it both a sporty race look and performance. With its 22 feet, Source 22 is the perfect size for high-speed sailing, where the hull is designed to have the most comfortable and efficient speed at 28 knots with 30% less consumption of fuel and electricity - depending on the engine you choose.

## SOCIAL HANGOUT

The pilot backrest can flip forward to create a dining area for 5 people, the adjustable cockpit table can transform into a 200x140cm sun lounge with an adjustable backrest to provide an optimal seating arrangement for each social situation, and the utility deck can transform into another massive sunbed - usability to provide the best experiences and companionship at sea.

DESIGNED WITH PERFORMANCE IN MIND, HERE'S THE PERFECT COMPANION FOR THOSE SEEKING HIGH-SPEED  
EXCITEMENT AND THE FREEDOM TO EXPLORE THE OCEAN'S BOUNDLESS POSSIBILITIES

\*All performance figures are calculated and are intended as an indication. These figures cannot be guaranteed, as top speed and duration are affected by the cleanliness of the hull, conditions of the propellers, weight carried, and the condition of the sea. Equipment selections and production processes may lead to variations in the boat's stated weight.

### **SUSTAINABLE PRODUCTION**

Even without an electric engine, Source 22 still has an industry-leading green profile in sustainable production because we produce it using organic and recycled materials. These materials are not only sustainable but also certified and tested strong materials, ensuring no compromise towards the craftsmanship and long-term preservation of the boat.

### **MASSIVE STORAGE ROOM**

Source 22 is equipped with one 1000 L storage room, giving massive space for watersport equipment and other items you need for your trip. As a part of the big storage room, an optional transportable cooler box gives the flexibility to carry cold beverages from

your home directly to the boat and then further to the beach or other destinations you are heading to.

### **INTERACTIVE COCKPIT**

The steering console is created around effortless sailing, giving an extremely user-friendly interface where everything is within reach of the captain. The interactive touchscreen also includes navigation and sailing information such as speed, fuel consumption, light controls, etc. As a part of RAND's intelligent boating, the steering console is fully connected to the RAND app, giving you real-time remote access, live updates, GPS fence for theft protection, intelligent AI user modes, and much more.

RACE PILOT SEATS FOR COMFORT DURING HIGH-SPEED SAILING

**ARE YOU LOOKING FOR LOW MAINTENANCE OR UNPARALLELED SPEED? CHOOSE THE ENGINE OF YOUR NEEDS WITH SOURCE 22.**

#### **ELECTRIC PROPULSION**

With electric propulsion, you will get low running costs, almost non-existing maintenance, a silent motor, more advanced interface systems, plug-and-play simplicity, and environmentally friendly boating. The 170kW motor gives you incredible acceleration and a top speed close to 50 knots. Combined with a battery capacity of 78kWh, you get the opportunity of high-speed sailing, but also a long silent cruise with a range of 80NM at 7 knots cruising speed and 20NM at 20 knots.

#### **PETROL PROPULSION**

Source 22 also comes with traditional petrol and diesel engines. You can choose between four different engines, both in-board and outboard, ranging from 150 to 250HP. With a tank capacity up to 198 liters, you have many hours of sailing with a cruising speed around 28 knots, and you can even reach a top speed of 50 knots.
